

Angelina Rahimi, MCP

Founder of Aura Planning

Angelina Rahimi, Founder of Aura Planning, has practiced urban planning and design, project management, and community engagement for over 20 years. She has initiated several projects for utility agencies, city agencies, and community-based organizations in the Middle East, Canada, and the United States. Her work efficiently merges economic development, energy conservation, and community empowerment to promote constructive change. She has developed innovative and replicable programs by leveraging policies, community partnerships, and neighborhood support. Projects she has lead include: Sacramento's first Net-Zero Mobility Hub, Sacramento's Transformative Climate Communities (TCC) planning grant, and Swift Current Innovative Engagement Program. She has been awarded City of Calgary's Mayor's Innovation Fund and Manitoba Hydro's research grant for her innovative strategies.

Her areas of expertise are: Innovative Stakeholder Engagement Strategies, Community Planning & Urban Design, Planning & Implementation of E-Mobility Hubs, Land-Use Policy Analysis, Energy Efficiency through Community-Based Social Marketing, and Project Initiation, Management & Implementation.

Angelina's has formed a dynamic network of: architects, engineers, researchers, and community members across the globe to join in her mission. Her innovative, community-based approach enables her to meet the needs of underserved neighborhoods.
